Welcome Spa Grove Esthetician Megan Dixon FACE + WAX + BODY We are excited to announce Yudu Salons newest member Megan Dixon. It's Megan's goal to educate her clients on what ingredients are safe and effective for their unique needs. Spa Grove believes in pure + clean products that are environmentally friendly and that nourish your skin + body + mind. Owner and Managing Esthetician Megan Dixon was born and raised in Pacific Grove, California. Megan moved to Ohio in 2002, where she attended the Spa School and graduated with a license in Managing Esthetics. She has worked with some of the city's best hair, skin, nail, and salon therapists and has a passion for healthy skin.

Megan has been delivering beautiful + healthy skin in the Columbus/Gahanna area for over 15 years, specializing in customized facials, face + body waxing services, and LED therapy. With additional certifications in Dermaplaning, and Oncology Spa Solutions, Megan feels lucky to love what she does every day. Using the most natural products, Megan's facial services will nourish, soothe and protect your skin while delivering excellent results. For waxing services, she is proud to offer wax that is full of natural and organic ingredients resulting in less redness, less reaction and less pain.

Although we feel each of our salon owners is special, Megan brings a unique service to Yudu Salons. Megan has gone to great lengths over the years to research and study natural and organic ingredients. To take it one step further, she trained at Oncology Spa Solutions and is a certified Oncology trained esthetician. She offers facials that are not intended to treat cancer, but to be a part of a holistic approach and help ease the skin related side effects of certain cancer treatments. If your looking someone that knows how to care for your skin while going through cancer treatments or looking for the perfect gift for a friend currently receiving treatment, Megan can provide a safe and compassionate relaxing facial to help you or a loved one escape.
